Signature is a registered trademark of Metal Building Components, L.P. Galvalume Plus is a registered and protected trademark of BIEC International, Inc.

❖ The Galvalume Plus® coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus® coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, MBCI recommends that pre-painted panels be used in lieu of Galvalume Plus®. Shade variation in panels manufactured from Galvalume Plus® coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

Consult the MBCI CRAFTSMAN™ DESIGN & INSTALLATION MANUAL for proper product application, design details and other product information.

PANEL PRICING:

- All pricing is based on net coverage.
- For short panel lengths, add: \$3.70 per panel for panels 4'-0" in length and shorter.
- Add \$7.55 per square for embossing.
- Pricing includes pans, battens, clips spaced two feet on center and standard packaging. Pricing does not include clip fasteners. For component pricing, refer to component accessory prices.

PACKAGING COST:

- Standard packaging: Cardboard carton with strippable film on panels.
- Lengths greater than 20'-0" require plywood crating.
- LTL shipments require plywood crating.
- Plywood crating: Add \$20.00 per square - \$200.00 minimum.
- Special packagingPlease Inquire

DELIVERY:

- 26 and 24 gauge - stocked colors (see back of Architectural Color Chart)Approximately 10 Working Days
- Other gauges, colors and metalsPlease Inquire

NOTES:

- 26 gauge panels - lengths longer than 10'-0"Please Inquire
- 24 and 22 gauge panels - lengths longer than 40'-0"Please Inquire
- All panels not being installed over a solid substructurePlease Inquire
- Batten length will be equal to panel length unless there is a slope change.
- Slope change: For each slope change add four inches (4") to each batten and one (1) extra clip. There will be no additional charge for this condition.
- Heavier gauges, narrower widths and embossing may minimize oil canning.

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. Installation of material constitutes acceptance.
