Meridian

STANDING SEAM SYSTEM

[Return to Product Listing](#)

Meridian is an economical, snap-together roofing system that is an excellent choice for commercial and residential applications. Panels are simply installed by placing pancake head fasteners in the panel's slotted flange. Meridian is installed over solid decking.

| Details | Testing Data | Panel Options |
|---|---|--|
| <p>Must be installed over solid decking</p> <p>Coating: Kynar 500</p> <p>3:12 Minimum Slope</p> | <p>Class A - Fire Rating</p> <p>ASTM E1680 - Air Infiltration</p> <p>ASTM E1646 - Water Infiltration</p> <p>UL 2218 - Class 4 Impact Resistance</p> | <p>26 gauge is available in 16" only</p> <p>24 gauge is available in 12" and 16"</p> <p>Panel Configurations: 16" Ribbed or Striated and also 12" Ribbed or Striated</p> <p>Substrate: Galvalume</p> <p>Factory formed eave notch upon request</p> |
