Steel Roofing & Siding Products

## Series 4000

The *NU-RAY METALS* Series 4000 metal roofing panel is an economical roof, wall or fascia panel system. The 4000 series works for a variety of building solutions: from new construction or renovation, to mansard, fascias, soffit and equipment screens.

The Series 4000 panel features full 36" net coverage and weather resistant anti siphon grooves.

For load table or physical properties data, contact Nu-Ray Metal Products.

The Series 4000 panel is available in:

- 28 gauge Nu-Ray SMP
- 26 gauge Nu-Shield with Teflon® surface protector
- 26 gauge Zincolume Plus

Matching trim and accessory packages are available.

For further technical data please contact Nu-Ray Metals or use our handy [online form](#) to request information.
