

Series 7000

Overlap Detail

TEFLON® is a registered trademark of DuPont™ used under license by Nu-Ray Metal Products, Inc.

Nu-Ray's Series 7000 is a roof and wall exposed-fastener panel system with a 36" net coverage.

With superior rigidity, Series 7000 is an excellent panel for applications over solid surfaces and for use over purlins, utilizing its long spanning capabilities.

Wall applications can feature the Series 7000 vertically or horizontally, and can be ordered with paint on the bottom surface.

NRM offers a full palette of cool color options featuring either top-of-the-line 26 gauge **Nu-Shield™ with Teflon® surface protector** or 24 gauge **PPG ULTRA-Cool™ Kynar 500®** paint finishes. Zinalume Plus is available in 26 and 24 gauge.

For more information, please visit our website or contact a Nu-Ray representative.
