

## Industrial Rib™

### Description:

Industrial Rib Panel is a factory formed corrugated commercial-industrial metal roof and wall panel that provides a traditional metal panel appearance. The Industrial Rib roofing panel is mechanically fastened with exposed fasteners and can be installed in a non-sequential pattern. The panel is available in a wide variety of materials and finishes including SColor, Kynar 500® Hylar 5000® pre-finished G-90 Galvanized Steel and Galvalume.

### Materials & Thickness:

- ▶ Galvanized & Galvalume 29-22ga  
Unpainted / Kynar 500® Hylar 5000® / SColor
- ▶ Weathering Steel

### Method of Application:

1. Industrial Rib panels may be installed in a non-sequential pattern over a solid substrate or open framing.

### Precautions:

1. Oil canning is not a cause for rejection.
2. Exercise caution when lifting, moving, transporting, storing or handling metal to avoid possible physical damage.

### Accessories:

We offer a full line of accessories that compliment this profile.

#### PRODUCT DATA

|                            |  |
